

PRESENTS

Buffalos on Auction

**Online-Live Stream Auction: 13 February 2021
11H00**

**Timed Auction: 11-13 February 2021
08H00 (11 Feb.) – 17H00 (13 Feb.)**

iKulu

iKulu is an **East African / Addo Bloodline** buffalo bull originating out of the Pymat buffalo herd of Mr. Pieter Prinsloo.

He was first introduced into our breeding herd in 2011, and paired with buffalo cows and heifers from Thaba Tholo, he has since bred numerous quality male and female offspring.

iKulu, like all of his sons, has proven to keep on growing at very mature ages. He is now just over 15 years old and has grown 1 inch since last measured in December 2015.

The average Roland Ward measurement of all of his sons older than 4 years is 44", which proves that he consistently breeds good bulls.

This is the perfect opportunity to acquire a 49"+ buffalo bull who is a proven breeder with a brilliant track record!

Transport:

Costs for transport of goods will be for the Owner/Seller's account in the following circumstances (excluding all Tswalu lots on auction):

1. Where any one Buyer purchases goods in excess of R200 000 (excluding VAT) from any one Seller, and the delivery address is within 200km from the Sellers property. Transport is then included within 200km.
2. Where any one Buyer has purchased goods in excess of R500 000 (excluding VAT) from any one Seller and the delivery address is within the RSA. Transport is then included within RSA.

Transport costs will otherwise be for the buyers account, except in the above circumstances.
