

TSWALU

PRESENTS

Quality Oryx Genetics

**Online-Live Stream Auction: 13 February 2021
11H00**

**Timed Auction: 11-13 February 2021
08H00 (11 Feb.) – 17H00 (13 Feb.)**

On Auction: 8 Tswalu Mixed Herd Oryx Lots

The mixed herds will consist of young, sub-adult and adult males and females. These animals will be caught during the annual game capture operations in May 2021

These Animals offer the very best of natural selection from a vast conservation area where predators and the harsh Kalahari conditions ensure that only the fittest survive!

On Auction: 4 Tswalu Eland Lots

Tswalu supports a population of over 1000 eland that are nomadic and roams over 1000 square kilometers. With high levels of predation and frequent drought, conditions are often tough and competition between bulls is intense. The Tswalu eland is, therefore, the result of the finest selection by nature

Mixed Herd Lots

LOT 235

LOT 251

TSWALU

On Auction: 3 Tswalu Kudu Bull Lots

The Korannaberg mountains run along the length of Tswalu Kalahari Reserve. The mountains offer a safe haven for a large kudu population, and every year large bulls emerge from the hills in search of females. High predation ensures that only the fittest bulls survive to breeding age
