PRESENTS

iDwala has been a stand out bull since a very young age. He is sired by $49 \frac{2}{8}$ " iKulu and $37 \frac{1}{2}$ " W26, both proven breeders in their own right.

48" + iDwala

SCI: $125 \frac{6}{8}$ "

iDwala measured 48" with a SCI of 125 $\$/\%$ at only 5 years and 5 months and was last measured on 17th August 2020 we will be measuring him again before the auction!

48" + iDwala

From a young age iDwala stood out from the herd and as he grew up he became the definition of impeccable genetics.

iDwala

5 December 2016 – 21 months

iDwala

12 March 2019 – 48 months

iDwala is still soft on the boss and shows a lot of potential of reaching the 50"+ mark, combined with exceptional proven genetic backing he is breeding bull for the future!

Sired by 49 ²/₈" IKulu

Ikulu is an **East African / Addo Bloodline** buffalo bull originating out of the Pymat buffalo herd of Mr Pieter Prinsloo.

He was first introduced into our breeding herd in 2011, and paired with buffalo cows and heifers from Thaba Tholo, he has since bred numerous quality male and female offspring.

Ikulu, like all of his sons has proven to keep on growing at very mature ages. He is now just over 15 years old and has grown with 1 inch since last measured in December 2015.
